GETTING STARTED

What would be your dream place to go on vacation?

DISCUSS

What do you feel has changed in the last ten years in our society? What has stayed the same?

What impact does the knowledge that God has fixed our time and locations to live have on you?

- If we all loved and were the neighbors Jesus wanted us to be, what societal ills would fade away?
- What experience or new toy is drawing you away from real relationships?

What can you do to be loving to others? How do you like someone to show love for you?

Is there someone you want to connect with that you aren't naturally drawn to? Who is it and why?

APPLY IT

Start thinking of your Home Gathering on Sunday, May 26. What can you plan that is a low bar that anyone can step over?

Take that next small step. God has put us in a time and place for a reason. Let's not waste our lives on toys and false adventures. Let's make sure everyone in our circle and neighborhood knows Jesus.
