GETTING STARTED

What is your favorite place to curl up and read or relax? What makes it special?

DISCUSS

How has your perception of the Bible been influenced by the society and culture we live in?

What challenges do you think people face when trying to interpret the Bible literally versus literarily?

- Is there a literal interpretation of a Bible verse or story you often hear taken out of context?

What do you hope to learn about the Bible to confidently discuss its meaning with others?

DISCUSS *(continued)*

As Lance mentions, sometimes we can be intimidated by the Bible. What do you find most challenging when picking up your Bible?

How can the fact that God intended the Bible to be FOR us enhance our ability to share its message and apply it to our own lives?

APPLY IT

Be a Radical this week with church attendance.

Dig into your Bible and browse the different genres.

Bring your curiosity and questions. Why are certain messages crafted in different styles?

The first step to understanding the Bible is to know how its built!
